

easyPush Guide: Setup an Apple Enterprise Account

This document is intended as a manual for our customers who are in the process of implementing easyPush. The underlying document will provide an overview about the Enterprise Program. Within this document you will also find the link for enrollment as well as a detailed overview for the Enterprise Program. It is important to understand, that the enrollment should be done by a company representative (you as Marketing or IT-Manager, etc.) who is eligible to conduct an enrollment for the Enterprise Programs.

1 Needed information before you start

Before you start the enrollment process make sure that you have the following information at hand:

- » Legal Entity Name
- » DUNS Number¹
- » Data of the Person which is legally authorized

¹ A valid Dun & Bradstreet (D-U-N-S) number is required for program enrollment. (<http://www.dnb.com/get-a-duns-number.html>)

2 Online Enrollment

The enrollment is done via the Apple website. Please go to the following URL: <https://developer.apple.com/programs/ios/enterprise/> and do the following needed steps:

- » Enter Account Information
- » Enter the Person which is legally authorized to enroll
- » Review & Submit
- » Company Verification
- » Agree to License
- » Purchase Program
- » Activate Program

3 Verification Process

After you have done the first two steps from the section above, you will get contacted by Apple to verify that you are authorized to do the enrollment. After this verification process, you can proceed with the last steps, which are done on Apple's website again.

4 InHouse Distribution Certificate

After finishing all steps, we kindly ask you to forward the log-in credentials for the Enterprise Program account to us². We will need the log in details in order to create certificates and to start developing apps with your specific company certificate.

² If you have your own mobile device management in place, it is also possible that we are providing you a unsigned app version of easyPush and the signing of the app is done by you.

We are happy to help you with the enrollment.

Just send us the needed information and we will do the required steps for you.
